

SAILING?

MUTUAL MOBILE DEV COMPETITION

Mutual Mobile is a young company well on the path to becoming the hottest iPhone App Development and Consulting Firm in the world. We don't have a lot of tolerance for mediocre work and so we are looking to hire **Rock Stars** in every position. If you think you have what it takes to be a great developer for the iPhone, read on.

We got a ton of responses to our job postings, and it is taking us too long to process them - so we created a **competition**. Send your responses to devcompetition09@mutualmobile.com by **Thursday, August 13th at 5:00 pm**.

Long (4 hrs max)

1. Create an iPhone project that can parse and display a plist of any depth. There is not just one correct way to answer this, use your creativity. Send us the xcode project zipped up along with some sample plist. Extra points for humorous content in the plist.

2. BONUS: Extend the program above to display a plist that is hosted remotely here: mutualmobile.com/office.plist

Short (5 mins each max, optional)

1. Third party library that makes it easy to display photos similar to the way Apple does in the Photos App.
2. Easiest way to geocode a point (on the iPhone).
3. What is Entitlements.plist?

Answers will be judged on how brief and elegant they are.

Subject of your email should be "Dev Competition - LASTNAME, FIRSTNAME". Include your phone number and what time Friday you are available to take a phone call. **You do not have to answer all the questions and please try not to spend too much time.**

Prize

- Sailing on Lake Travis on a 25ft sailboat with the founders of Mutual Mobile. If you are not from Austin, we will give you a signing bonus instead.
- An opportunity to work alongside fellow RockStars at Mutual Mobile (Starting with an hourly contract, and possibly a full-time contract)
